

Contents Volume 27, 1996

Introduction Climates and Climate Variability of the Pliocene R.Z. Poore and L.C. Sloan	1
Pliocene climates: the nature of the problem T.J. Crowley	3
Middle Pliocene sea surface temperatures: a global reconstruction H. Dowsett, J. Barron and R. Poore	13
Middle Pliocene vegetation: reconstructions, paleoclimatic inferences, and boundary conditions for climate modeling R.S. Thompson and R.F. Fleming	27
Modeling of middle Pliocene climate with the NCAR GENESIS general circulation model L.C. Sloan, T.J. Crowley and D. Pollard	51
Equatorial Pacific sea surface temperatures, faunal patterns, and carbonate burial during the Pliocene T. King	63
Pliocene climate of Japan and environs between 4.8 and 2.8 Ma: a joint pollen and marine faunal study L.E. Heusser and J.J. Morley	85
Sediment geochemical evidence for an early-middle Gilbert (early Pliocene) productivity peak in the North Pacific Red Clay Province G.R. Dickens and R.M. Owen	107
Depositional and microfaunal response to Pliocene climate change and tectonics in the eastern Gulf of Alaska M.B. Lagoe and S.D. Zellers.	121
Pliocene and early Pleistocene environments and climates of the western Snake River Plain, Idaho R.S. Thompson	141
The Pliocene record in the central Arctic Ocean D.L. Clark	157
A benthic foraminiferal record of middle to late Pliocene (3.15–2.85 Ma) deep water change in the North Atlantic S.E. Ishman.	165
Southeast Atlantic marine and terrestrial response to middle Pliocene climate change H. Dowsett and D. Willard.	181
Diatom constraints on the position of the Antarctic Polar Front in the middle part of the Pliocene J.A. Barron	195
No evidence for extreme, long term warming in early Pliocene sediments of the Southern Ocean L.H. Burckle, R. Mortlock and S. Rudolph	215
Evidence of Pliocene <i>Nothofagus</i> in Antarctica from Pliocene marine sedimentary deposits (DSDP Site 274) R.F. Fleming and J.A. Barron	227
Major deglaciation of east Antarctica during the early Late Pliocene? Not likely from a marine perspective D.A. Warnke, B. Marzo and D.A. Hodell	237
Miocene and Pliocene paleoclimate of the Dry Valleys region, Southern Victoria land: a geomorphological approach D.R. Marchant and G.H. Denton.	253
A marine and terrestrial Sirius Group succession, middle Beardmore Glacier–Queen Alexandra Range, Transantarctic Mountains, Antarctica P.-N. Webb, D.M. Harwood, M.G.C. Mabin and B.C. McKelvey	273
Oak leaves as biosensors of late Neogene and early Pleistocene paleoatmospheric CO ₂ concentrations W.M. Kürschner, J. van der Burgh, H. Visscher and D.L. Dilcher	299
Mid-Pliocene warmth: stronger greenhouse and stronger conveyor M.E. Raymo, B. Grant, M. Horowitz and G.H. Rau	313
